Andreas Kritikos

Computer Engineering and Informatics Student

4th-year Computer Engineering and Informatics student at the University of Patras (CEID), specializing in Big Data. Passionate about Artificial Intelligence, Machine Learning, and Signal Processing. A collaborative team player focused on extracting insights from complex data sets and staying up-to-date with the latest technological advancements

Education

MEng Computer Engineering and Informatics
Expected Graduation 2027
Current GPA 7.04/10

Experience

Laboratory Assistant
Logic Design Lab, CEID
Duration: 2023 - 2026

Language

Greek: Native
English: Fluent (C2)

Skills

- **Programming: C, C++, Java, Python, SQL, MATLAB**
- **Core Competencies: Machine Learning, Artificial Intelligence, Signal Processing, Data Science, Adaptive Filtering, Data Retrieval, Parallel Processing.**

Core Coursework

Specialization:

Machine Learning, AI, Digital Signal Processing, Statistical Signal Processing and Learning, Data Retrieval, Data Structures, Big Data Structures

---

CS Fundumentals:

Computer Architecture, Systems Programming, OOP, Algorithms, Web Programming, Software Engineering

Projects

- **Federated vs Centralised Dictionary Learning**
  (Python)
- **Stock Price Prediction using Regression**
  (Python)
- **System Identification with LMS, NLMS, RLS**
  (Matlab)
- **Multi-Dimensional Data structures Implementations**
  group project (Python)
- **Data Retrieval Methods Implementations**
  group project (Python)
- **Email Ham - Spam Filter using Machine Learning**
  (Python)
- **Airline Managing System**
  group project (Java OOP)
